Sexual Assault Prevention Tips

1. Don't put drugs in people's drinks in order to control their behavior.
2. When you see someone walking by themselves, leave them alone!
3. If you pull over to help someone with car problems, remember not to assault them!
4. NEVER open an unlocked door or window uninvited.
5. If you are in an elevator and someone else gets in, DON'T ASSAULT THEM!
6. USE THE BUDDY SYSTEM! If you are not able to stop yourself from assaulting people, ask a friend to stay with you while you are in public.
7. Always be honest with people! Don't pretend to be a caring friend in order to gain the trust of someone you want to assault. Consider telling them you plan to assault them. If you don't communicate your intentions, the other person may take that as a sign that you do not plan to rape them.
8. Don't forget you can't have sex with someone unless they are awake!
9. Carry a whistle! If you're worried you might assault someone 'accidentally' you can hand it to the person you're with so they can blow it if you do.

10. Don't assault people.
