Dysport 500 UNITS for \$169.99 **CLICKHERE TO ORDER**

NEW- this price includes the upgrade to overnight shipping and includes the cold packaging required for your order to arrive without heat damage now that it is summer time...Order the three pack and save!

teeny little needle!

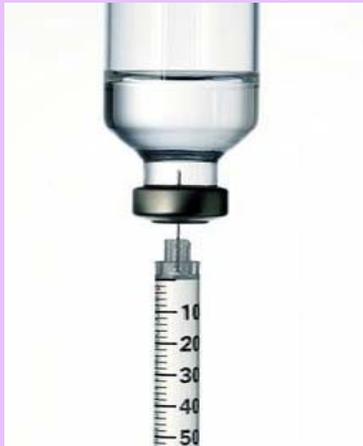

I am excited to introduce the newest member of our product group- Dysport! I find this product results the same as Freeze but with a few advantages that make it worth the extra money. The Dysport kicks in quite a bit faster than the Freeze, with results evident in as little as 10-12 hours. The Freeze takes up to 5 days. I have used the product twice on myself and can testify to the results also lasting longer. Freeze will last me 3 months at peak performance, but with the Dysport I am still 'frozen' after 4 months. Doing it yourself is SO MUCH CHEAPER than having it done at a salon. I am here to tell everyone that if you have ever removed a splinter with a needle, THAT is way more painful than getting this treatment. Here is a video of me doing mine- it just isn't that hard!

You Get Everything You Need!

I will send a complete kit- everything you need. I also include detailed instructions. You get 500 units, which usually retail from \$2-3 per unit (500 units sells at over \$1000 easy). By mixing it yourself, you know you are getting the full 500 units, unlike the premixed product that could be diluted more than it is supposed to be. Read up- these are 500 actual units- and you won't have to pay "per area" or any other confusing sales packaging. There is only one size of Dysport available at this time, but I do have a three pack to save you money for \$449. I am in the US and will not scam you like many of the off shore companies have been known to do.

ACTUAL RESULTS!

I am so excited by the ability to eliminate the middle-man that I had to share this with everyone I am willing to send one unit for the first order, but prefer to sell three at a time to save both of us on shipping. I know I like to try once before I buy a bunch of product, so the first order can be for one bottle which is 500 units. You may want to purchase with a friend because 500 units is easily enough for two female faces, (men generally have stronger facial muscles and require more) but you can not save it until you are ready for it next time because once it is

Wrinkle Freeze 100 UNITS for \$149.99 [Click Here](#) to Order

NEW- this price includes the upgrade to Fed Ex shipping and includes the cold packaging required for your order to arrive without heat damage ...Order the three pack for \$399 and save!

teeny little needle!

I have been using the product myself for over two years, and it works just as well if not better than when I buy it at the salon or medspa. It is SO MUCH CHEAPER than having it done at a salon. I am here to tell everyone that if you have ever removed a splinter with a needle, THAT is way more painful than getting this treatment. Here is a video of me doing mine- it just isn't that hard!

and the RESULTS!

<http://www.youtube.com/watch?v=dXJLyI0U-4w>

I will send a complete kit- everything you need. I also include detailed instructions. You get 100 units, which usually retail from \$8-15 per unit (100 units sells at over \$1000 easy). By mixing it yourself, you know you are getting the full 100 units, unlike the premixed product that could be diluted more than it is supposed to be. Read up- these are 100 actual units- and you won't have to pay "per area" or any other confusing sales packaging. Freeze is now also available in 50 unit vials to help save you money. I am in the US and will not scam you like many of the off shore companies have been known to do.

I am so excited by the ability to eliminate the middle-man that I had to share this with everyone I am willing to send one unit for the first order, but prefer to sell three at a time to save both of us on shipping. I know I like to try once before I buy a bunch of product, so the first order can be for one bottle which is 100 units. You may want to purchase with a friend because 100 units is easily enough for two faces, but you can not save it until you are ready for it next time because once it is mixed it must be used WITHIN TWO WEEKS. The new kit gives you a bottle of Bacteriostatic Saline with your order, which reduces the stinging sensation of the injection and also allows the solution to be kept in the refrigerator for two weeks after mixing. Extra vials of Freeze can be stored in the FREEZER for up to two years! So stock up for yourself or have a few on hand to sell to your friends!

You Get Everything You Need!

ACTUAL RESULTS!

I am a big fan of the results. I am 38 and am
