Dear Mr. Davis:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 335818 (your ID# 1600/62283).

The Collin County Sheriff's Office (the "sheriff"), which you represent, received a request for specified medical records pertaining to the requestor's son. You claim that the submitted records are excepted from disclosure under section 552.108 of the Government Code. We have considered the exception you claim and reviewed the submitted information.

We note that the submitted medical records are subject to the Medical Practice Act (the "MPA"). Section 552.101 of the Government Code excepts from disclosure "information considered to be confidential by law, either constitutional, statutory, or by judicial decision."¹ Gov't Code § 552.101. This exception encompasses information that other statutes make confidential. Medical records are confidential under the MPA, subtitle B of title 3 of the Occupations Code. Section 159.002 of the MPA provides in part:

(b) A record of the identity, diagnosis, evaluation, or treatment of a patient by a physician that is created or maintained by a physician is confidential and privileged and may not be disclosed except as provided by this chapter.

(c) A person who receives information from a confidential communication or record as described by this chapter, other than a person listed in Section 159.004 who is acting on the patient's behalf, may not disclose the

information except to the extent that disclosure is consistent with the authorized purposes for which the information was first obtained.

Occ. Code § 159.002(b)-(c). This office has determined that in governing access to a specific subset of information, the MPA prevails over the more general provisions of the Act, including section 552.108, which is the only exception to disclosure you raise. *See* Open Records Decision No. 598 (1991). Furthermore, this office has also concluded that when a file is created as the result of a hospital stay, all of the documents in the file that relate to diagnosis and treatment constitute either physician-patient communications or records of the identity, diagnosis, evaluation, or treatment of a patient by a physician that are created or maintained by a physician. *See* Open Records Decision No. 546 (1990). Thus, the submitted hospital records are generally confidential under the MPA and may only be released in accordance with its access provisions. The requestor in this instance may have a right of access to the submitted medical records. Medical records must be released on the patient's signed, written consent, provided that the consent specifies (1) the information to be covered by the release, (2) the reasons or purposes for the release, and (3) the person to whom the information is to be released. *See* Occ. Code §§ 159.004, .005. Any subsequent release of medical records must be consistent with the purposes for which the governmental body obtained the records. *See id.* § 159.002(c); Open Records Decision No. 565 at 7 (1990). Thus, the submitted medical records must be withheld under the MPA unless the sheriff receives written consent for their release that complies with sections 159.004 and 159.005 of the MPA.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
