Dear Ms. McPhee:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 355935 (CMcD # 2112).

The Georgetown Fire Department (the "department"), which you represent, received a request for information related to incident number 9000859. You state the department has released some of the requested information. You claim that the remaining requested information is excepted from disclosure under section 552.101 of the Government Code. We have considered the exception you claim and reviewed the submitted information.

Section 552.101 of the Government Code excepts from public disclosure "information considered to be confidential by law, either constitutional, statutory, or by judicial decision." Gov't Code § 552.101. This exception encompasses information that another statute makes confidential. You raise section 552.101 in conjunction with section 773.091 of the Health and Safety Code. Section 773.091 of the Health and Safety Code provides in relevant part:

(b) Records of the identity, evaluation, or treatment of a patient by emergency medical services personnel or by a physician providing medical supervision that are created by the emergency medical services personnel or physician or maintained by an emergency medical services provider are confidential and privileged and may not be disclosed except as provided by this chapter.

...

(g) The privilege of confidentiality under this section does not extend to information regarding the presence, nature of injury or illness, age, sex, occupation, and city of residence of a patient who is receiving emergency medical services.

Health & Safety Code § 773.091(b), (g). You explain that the submitted information consists of first responder emergency medical service records that are subject to chapter 773 of the Health and Safety Code. You do not inform us that the exceptions to confidentiality set forth in section 773.092 or the consent provisions in section 773.093 of the Health and Safety Code apply in this instance. You state that information subject to release pursuant to section 773.091(g) of the Health and Safety Code has been made available to the requestor. Accordingly, we conclude that the department must withhold the remaining requested information under section 552.101 of the Government Code in conjunction with section 773.091 of the Health and Safety Code.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
