Dear Ms. Vieira:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 564967 (OGC #160795).

The University of Texas at El Paso (the "university") received a request for the name of the contractor and the amount of the award to provide cleaning services for the Sun Bowl after Monster Truck events. The university states it has released some information. The university claims portions of the submitted information are excepted from disclosure under section 552.104 of the Government Code. We have considered the exception the university claims and reviewed the submitted information.

Section 552.104 of the Government Code excepts from disclosure "information that, if released, would give advantage to a competitor or bidder." Gov't Code § 552.104. The purpose of section 552.104 is to protect a governmental body's interests in competitive bidding situations and in certain other competitive situations. *See* Open Records Decision No. 593 (1991) (construing statutory predecessor). This office has held a governmental body may seek protection as a competitor in the marketplace under section 552.104 and avail itself of the "competitive advantage" aspect of this exception if it can satisfy two criteria. *See id.* First, the governmental body must demonstrate it has specific marketplace interests. *See id.* at 3. Second, the governmental body must demonstrate a specific threat of actual or potential harm to its interests in a particular competitive situation. *See id.* at 5. Thus, the question of whether the release of particular information will harm a governmental body's legitimate

interests as a competitor in a marketplace depends on the sufficiency of the governmental body's demonstration of the prospect of specific harm to its marketplace interests in a particular competitive situation. *See id.* at 10. A general allegation of a remote possibility of harm is not sufficient. *See* Open Records Decision No. 514 at 2 (1988).

The university contends it has specific marketplace interests in the submitted information because the university is competing against other local governmental and private entities that operate other special use facilities for the same types of events. The university states the information it has marked consists of pricing information pertaining to the facilities at issue. We understand the price charged to the university for cleaning the facility after a Monster Truck event is part of the pricing charged to hold Monster Truck events in the Sun Bowl. The university explains contracts for the use of these facilities are negotiated on a continuous year-around basis. The university argues release of the information it has marked would compromise the university's competitive advantage in the marketplace by placing confidential pricing information in a public forum. Based on these representations and our review, we find the university has demonstrated it has specific marketplace interests and may be considered a "competitor" for purposes of section 552.104. Further, we find the university has demonstrated release of the information it has marked would cause specific harm to the university's marketplace interests in a particular competitive situation. Accordingly, the university may withhold the information it has marked under section 552.104 of the Government Code.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
