ATTORNEY GENERAL OF TEXAS

Ms. Aimee Alcorn
Assistant City Attorney
City of Corpus Christi
P.O. Box 9277
Corpus Christi, Texas 78469-9277

OR2015-11523

Dear Ms. Alcorn:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 569097 (Corpus Christi File No. 412).

The City of Corpus Christi (the "city") received a request for a spreadsheet of all current residential backflow prevention assembly devices in the city, including the make, model and serial number of the device, physical location, mailing address of owner, and last test date. You claim the submitted information is excepted from disclosure under section 552.101 of the Government Code. We have considered the exception you claim and reviewed the submitted information.

Section 552.101 of the Government Code excepts from disclosure "information considered to be confidential by law, either constitutional, statutory, or by judicial decision." Gov't Code § 552.101. This section encompasses information protected by other statutes. As part of the Texas Homeland Security Act ("HSA"), sections 418.176 through 418.182 were added to chapter 418 of the Government Code. These provisions make certain information related to terrorism confidential. You assert the submitted list is confidential under section 418.181 of the Government Code, which provides "[t]hose documents or portions of documents in the possession of a governmental entity are confidential if they identify the technical details of particular vulnerabilities of critical infrastructure to an act of terrorism." *Id.* § 418.181. The fact that information may relate to a governmental body's security concerns does not make the information *per se* confidential under the HSA. *See* Open Records Decision

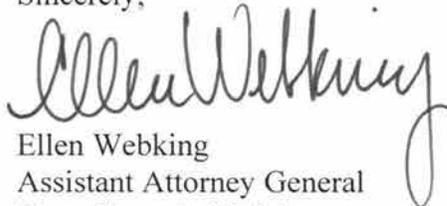

No. 649 at 3 (1996) (language of confidentiality provision controls scope of its protection). Furthermore, the mere recitation by a governmental body of a statute's key terms is not sufficient to demonstrate the applicability of the claimed provision. As with any exception to disclosure, a governmental body asserting one of the confidentiality provisions of the HSA must adequately explain how the responsive records fall within the scope of the claimed provision. *See* Gov't Code § 552.301(e)(1)(A) (governmental body must explain how claimed exception to disclosure applies).

You assert, and we agree, the city's water system is critical infrastructure. *See generally id.* § 421.001 (defining "critical infrastructure" to include "all public or private assets, systems, and functions vital to the security, governance, public health and safety, economy, or morale of the state or the nation"). You explain backflow preventers are devices required by the city for locations that pose a potential health hazard of a physical or toxic nature to the water system. You state the submitted information identifies the physical locations of backflow preventers throughout the city and the specific type, make, and serial numbers of the devices. You state that, with the release of the submitted information, contaminants could be introduced into the city's water system. Based on your representations and our review, we find you have demonstrated the submitted information identifies the technical details of particular vulnerabilities of the city's water system to an act of terrorism. Thus, the submitted information must be withheld under section 552.101 of the Government Code in conjunction with section 418.181 of the Government Code.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.
