

**KEN PAXTON**  
ATTORNEY GENERAL OF TEXAS

August 12, 2015

Ms. Sarah R. Martin  
Assistant City Attorney  
Arlington Police Department  
P.O. Box 1065  
Arlington, Texas 76004-1065

OR2015-16646

Dear Ms. Martin:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 580886 (Arlington Reference No. 22410).

The Arlington Police Department (the "department") received a request for a specified incident report. You claim the submitted information is excepted from disclosure under section 552.101 of the Government Code. We have considered the exception you claim and reviewed the submitted information.

Section 552.101 of the Government Code excepts from disclosure "information considered to be confidential by law, either constitutional, statutory, or by judicial decision." Gov't Code § 552.101. Section 552.101 encompasses the doctrine of common-law privacy, which protects information that is (1) highly intimate or embarrassing, the publication of which would be highly objectionable to a reasonable person and (2) not of legitimate concern to the public. *Indus. Found. v. Tex. Indus. Accident Bd.*, 540 S.W.2d 668, 685 (Tex. 1976). To demonstrate the applicability of common-law privacy, both prongs of this test must be satisfied. *Id.* at 681-82. Types of information considered intimate and embarrassing by the Texas Supreme Court are delineated in *Industrial Foundation*. *Id.* at 683. We note the

identity of the victim of an alleged sexual assault is confidential under common-law privacy. *See id.* at 683; *see also* Open Records Decision Nos. 393 (1983), 339 (1982).

Upon review, we find the victim's identifying information satisfies the standard articulated by the Texas Supreme Court in *Industrial Foundation*. Accordingly, the department must withhold the victim's identifying information under section 552.101 of the Government Code in conjunction with common-law privacy.

We note some of the remaining information pertains to a polygraph examination. Section 552.101 of the Government Code also encompasses section 1703.306 of the Occupations Code, which provides:

(a) A polygraph examiner, trainee, or employee of a polygraph examiner, or a person for whom a polygraph examination is conducted or an employee of the person, may not disclose information acquired from a polygraph examination to another person[.]

(b) The [Texas Department of Licensing and Regulation] or any other governmental agency that acquires information from a polygraph examination under this section shall maintain the confidentiality of the information.

Occ. Code § 1703.306(a), (b). Upon review, we find the information we have marked was acquired from a polygraph examination. The requestor does not fall within any of the categories of individuals who are authorized to receive the submitted polygraph information under section 1703.306(a). Accordingly, the department must withhold the polygraph information we have marked under section 552.101 of the Government Code in conjunction with section 1703.306 of the Occupations Code.

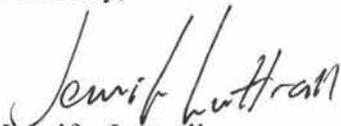

In summary, the department must withhold the victim's identifying information under section 552.101 of the Government Code in conjunction with common-law privacy. The department must withhold the polygraph information we have marked under section 552.101 of the Government Code in conjunction with section 1703.306 of the Occupations Code. The remaining information must be released.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor. For more information concerning those rights and responsibilities, please visit our website at <http://www.texasattorneygeneral.gov/open/>
