

KEN PAXTON
ATTORNEY GENERAL OF TEXAS

August 14, 2015

Ms. Sarah Stallberg
Assistant County Attorney
County of Montgomery
501 North Thompson, Suite 300
Conroe, Texas 77301

OR2015-16868

Dear Ms. Stallberg:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 576235 (ORR File 15PIA290).

The Montgomery County Fire Marshal's Office (the "fire marshal's office") received a request for specified information pertaining to the Tier Two chemical reports for facilities in a specified area.¹ You claim the submitted information is excepted from disclosure under section 552.101 of the Government Code. We have considered the exception you claim and reviewed the submitted information.

You state the fire marshal's office maintains the requested information through the Tier Two Chemical Reporting Program, a program implemented in accordance with the federal Emergency Planning and Community Right-to-Know Act ("EPCRA") and the Texas right-to-know laws. *See* 42 U.S.C. §§ 11011-11050; Health & Safety Code §§ 505.001-.017, 506.001-.017, 507.001-.013. As explicitly stated in the federal provisions,

¹We note the fire marshal's office sought and received clarification of the information requested. *See* Gov't Code § 552.222 (providing if request for information is unclear, governmental body may ask requestor to clarify request); *see also City of Dallas v. Abbott*, 304 S.W.3d 380, 387 (Tex. 2010) (holding when governmental entity, acting in good faith, requests clarification of unclear or overbroad request for public information, ten-business-day period to request attorney general opinion is measured from date request is clarified or narrowed).

the EPCRA does not preempt any state or local law. *See* 42 U.S.C. § 11041(a). Thus, we look to the statutory scheme established under Texas law to determine the disposition of the requested information. Facilities subject to Tier Two chemical reporting requirements must report required data concerning Tier Two chemicals to the Department of State Health Services (“DSHS”), the local emergency planning committee, and the local fire chief. Health & Safety Code §§ 505.006(c), (e), 506.006(c)-(d), 507.006(c), (e). It is this information, that is, information held by the fire marshal’s office as part of the Tier Two Chemical Reporting Program, that we address in this ruling. This ruling does not impact the legal right of citizens to access hazardous chemical information directly from a facility for community right-to-know purposes. *Id.* §§ 505.007(a), 506.007(a). Sections 505.007(b) and 506.007(b) of the Health & Safety Code require any facility subject to chapter 505 or chapter 506 of the Health and Safety Code to furnish, upon request, the facility’s existing workplace chemical list within ten working days of the date of receipt of a written request. *Id.* §§ 505.007(b), 506.007(b).² Violations of chapter 505, chapter 506, or chapter 507 of the Health & Safety Code may be reported to DSHS for investigation and possible administrative penalty. *Id.* §§ 505.010, 506.010, 507.009.

Section 552.101 of the Government Code excepts from public disclosure “information considered to be confidential by law, either constitutional, statutory, or by judicial decision.” Gov’t Code § 552.101. This exception encompasses information that is made confidential by other statutes. You raise section 552.101 in conjunction with sections 418.177, 418.178, and 418.181 of the Texas Homeland Security Act (the “HSA”), chapter 418 of the Government Code. Sections 418.176 through 418.182 were added to chapter 418 as part of the HSA. These provisions make certain information related to terrorism confidential. Section 418.177 of the Government Code provides that information is confidential if it:

(1) is collected, assembled, or maintained by or for a governmental entity for the purpose of preventing, detecting, or investigating an act of terrorism or related criminal activity; and

(2) relates to an assessment by or for a governmental entity, or an assessment that is maintained by a governmental entity, of the risk or vulnerability of persons or property, including critical infrastructure, to an act of terrorism or related criminal activity.

Id. § 418.177. Section 418.178 provides:

(a) In this section, “explosive weapon” has the meaning assigned by Section 46.01, Penal Code.

²Chapter 507 of the Health and Safety Code, which applies to non-manufacturing facilities, does not contain a direct access provision.

(b) Information is confidential if it is information collected, assembled, or maintained by or for a governmental entity and:

(1) is more than likely to assist in the construction or assembly of an explosive weapon or a chemical, biological, radiological, or nuclear weapon of mass destruction; or

(2) indicates the specific location of:

(A) a chemical, biological agent, toxin, or radioactive material that is more than likely to be used in the construction or assembly of such a weapon; or

(B) unpublished information relating to a potential vaccine or to a device that detects biological agents or toxins.

Id. § 418.178. Section 418.181 provides:

Those documents or portions of documents in the possession of a governmental entity are confidential if they identify the technical details of particular vulnerabilities of critical infrastructure to an act of terrorism.

Id. § 418.181. The fact that information may be related to a governmental body's security concerns, biological toxins, or emergency preparedness does not make such information *per se* confidential under the HSA. *See* Open Records Decision No. 649 at 3 (1996) (language of confidentiality provision controls scope of its protection). Furthermore, the mere recitation by a governmental body of a statute's key terms is not sufficient to demonstrate the applicability of a claimed provision. As with any exception to disclosure, a governmental body asserting one of the confidentiality provisions of the HSA must adequately explain how the responsive records fall within the scope of the claimed provision. *See* Gov't Code § 552.301(e)(1)(A) (governmental body must explain how claimed exception to disclosure applies).

You argue the submitted information is confidential under section 418.178(b) because it reveals information regarding specific facilities holding hazardous chemicals that are more than likely to assist in the construction or assembly of an explosive weapon. The location of any Texas facility holding threshold quantities of hazardous substances and extremely hazardous substances must be reported to the committee under the Tier Two Chemical Reporting Program. We recognize the public's legitimate interest in obtaining information concerning hazardous substances stored in Texas communities. However, we must follow the plain language of section 418.178 which, through its unconditional mandate of confidentiality, does not allow us to take into account the public interest that exists in the release of this information. Therefore, the fire marshal's office must withhold the

information which would indicate the specific locations of the facilities at issue, which we have marked, under section 552.101 of the Government Code in conjunction with section 418.178 of the Government Code.³ However, as stated above, this ruling does not impact the legal right of citizens to access a facility's existing workplace chemical list directly from any facility covered under chapter 505 or chapter 506 of the Health and Safety Code.

The remaining information does not indicate the specific locations of chemicals that are more than likely to assist in the construction or assembly of an explosive weapon. Further, the fire marshal's office has not explained how section 418.178(b)(1) or section 418.178(b)(2)(B) encompasses any of the remaining information. Accordingly, the fire marshal's office may not withhold any of the remaining information under section 552.101 of the Government Code in conjunction with section 418.178 of the Government Code. Further, you have failed to demonstrate the remaining information is confidential under sections 418.177 or 418.181 of the Government Code. Therefore, the fire marshal's office may not withhold any of the remaining information under section 552.101 of the Government Code in conjunction with sections 418.177 or 418.181 of the Government Code.

Section 552.101 of the Government Code also encompasses information made confidential by judicial decision and the common-law physical safety exception. The Texas Supreme Court has recognized, for the first time, a common-law physical safety exception to required disclosure. *Tex. Dep't of Pub. Safety v. Cox Tex. Newspapers, L.P. & Hearst Newspapers, L.L.C.*, 343 S.W.3d 112, 118 (Tex. 2011). Pursuant to this common-law physical safety exception, "information may be withheld [from public release] if disclosure would create a substantial threat of physical harm. *Id.* In applying this standard, the court noted "deference must be afforded" law enforcement experts regarding the probability of harm, but further cautioned, "vague assertions of risk will not carry the day." *Id.* at 119. Upon review, we conclude you have failed to demonstrate the applicability of the common-law physical safety exception to any of the remaining information. Accordingly, the fire marshal's office may not withhold any of the remaining information under section 552.101 of the Government Code in conjunction with the common-law physical safety exception.

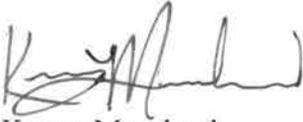

In summary, the fire marshal's office must withhold the information which would indicate the specific locations of the facilities at issue, which we have marked, under section 552.101 of the Government Code in conjunction with section 418.178 of the Government Code. The fire marshal's office must release the remaining information. This ruling does not impact the legal right of citizens to access a facility's existing workplace chemical list directly from a facility covered by chapter 505 or chapter 506 of the Health and Safety Code.

³As our ruling is dispositive, we need not address your remaining arguments against disclosure of this information.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor. For more information concerning those rights and responsibilities, please visit our website at http://www.texasattorneygeneral.gov/open/orl_ruling_info.shtml, or call the Office of the Attorney General's Open Government Hotline, toll free, at (877) 673-6839. Questions concerning the allowable charges for providing public information under the Act may be directed to the Office of the Attorney General, toll free, at (888) 672-6787.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kenny Moreland', written over a horizontal line.
