

KEN PAXTON
ATTORNEY GENERAL OF TEXAS

November 9, 2015

Mr. Renaldo Stowers
Senior Associate General Counsel
University of North Texas System
1155 Union Circle, #310907
Denton, Texas 76203-5017

OR2015-23584

Dear Mr. Stowers:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 586825 (PIR# 001552).

The University of North Texas Health Science Center at Fort Worth (the "center") received a request for the personnel file of a named employee and all materials pertaining to DNA testing, analysis, or comparison in regards to a specified case. You state you will provide some information to the requestor. You claim the submitted information is excepted from disclosure under section 552.101 of the Government Code. We have considered the exception you claim and reviewed the submitted representative sample of information.¹

Section 552.101 of the Government Code excepts from disclosure "information considered to be confidential by law, either constitutional, statutory, or by judicial decision." Gov't Code § 552.101. Section 552.101 encompasses information made confidential by other statutes. Section 552.101 encompasses section 411.153 of the Government Code, which provides, as follows:

¹We assume the "representative sample" of records submitted to this office is truly representative of the requested records as a whole. *See* Open Records Decision Nos. 499 (1988), 497 (1988). This open records letter does not reach, and therefore does not authorize the withholding of, any other requested records to the extent that those records contain substantially different types of information than that submitted to this office.

- (a) A DNA record stored in the DNA database is confidential and is not subject to disclosure under [the Act].
- (b) A person commits an offense if the person knowingly discloses to an unauthorized recipient information in a DNA record or information related to a DNA analysis of a sample collected under this subchapter.
- (c) An offense under this section is a state jail felony.
- (d) A violation under this section constitutes official misconduct.

Id. § 411.153. A “DNA record” means the results of a forensic DNA analysis performed by a DNA laboratory. *See id.* § 411.141(6)-(7). “Forensic analysis” is defined as “a medical, chemical, toxicologic, ballistic, or other expert examination or test performed on physical evidence, including DNA evidence, for the purpose of determining the connection of the evidence to a criminal action.” *See* Crim. Proc. Code art. 38.35(4); *see also* Gov’t Code § 411.141(10) (providing that “forensic analysis” has meaning assigned by article 38.35). A “DNA database” means “one or more databases that contain forensic DNA records maintained by the director of [the Department of Public Safety (“DPS”).” Gov’t Code § 411.141(5); *see id.* § 411.001(3).

The director of DPS is required to establish certain procedures for DNA laboratories. *See id.* §§ 411.142(h) (requiring director establish standards for DNA analysis), .144(a). Section 411.144 of the Government Code provides that a DNA laboratory conducting a forensic DNA analysis under subchapter G of chapter 411 shall comply with subchapter G and the rules adopted under subchapter G. *See id.* § 411.144(d); 37 T.A.C. §§ 28.81, .82 (describing minimum standards by which forensic DNA laboratory must abide); *see also* Gov’t Code § 411.147(b).

You explain the submitted information consists of forensic DNA reports, which identify the source from which the DNA was extracted, contain the results of DNA tests, identify the systems used in the analysis, and contain analysts’ conclusions. You assert the submitted information consists of “DNA records because they were generated for the purpose of, and result from, a forensic DNA analysis.” Upon review, we find the submitted information consists of records relating to DNA analyses of samples that appear to have been collected under subchapter G of chapter 411 of the Government Code. We note this information appears to be the result of forensic DNA analyses performed by a DNA laboratory in accordance with DPS regulations. Therefore, the center must withhold the submitted information under section 552.101 of the Government Code in conjunction with section 411.153 of the Government Code.² *See City of Fort Worth v. Abbott*, 258

²As our ruling is dispositive, we need not address your remaining argument against disclosure.

S.W.3d 320, 328 (Tex. App.—Austin 2008, no pet.) (section 411.153 of the Government Code prohibits release of DNA records held by city forensic science laboratory regardless of whether that record has been forwarded to DPS state DNA database).

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor. For more information concerning those rights and responsibilities, please visit our website at http://www.texasattorneygeneral.gov/open/orl_ruling_info.shtml, or call the Office of the Attorney General's Open Government Hotline, toll free, at (877) 673-6839. Questions concerning the allowable charges for providing public information under the Act may be directed to the Office of the Attorney General, toll free, at (888) 672-6787.

Sincerely,

Ashley Crutchfield
Assistant Attorney General
Open Records Division
