

KEN PAXTON
ATTORNEY GENERAL OF TEXAS

December 2, 2015

Ms. Jennifer Burnett
Office of the General Counsel
The University of Texas System
201 West Seventh Street
Austin, Texas 78701-2902

OR2015-25091

Dear Ms. Burnett:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 591369 (OGC# 164830).

The University of Texas at Austin (the "university") received a request for a specified grant proposal. The university states it will release some of the requested information, but claims some of the submitted information is excepted from disclosure under section 552.101 of the Government Code. We have considered the claimed exception and reviewed the submitted information.

Section 552.101 of the Government Code excepts from public disclosure "information considered to be confidential by law, either constitutional, statutory, or by judicial decision." Gov't Code § 552.101. This section encompasses section 51.914 of the Education Code, which provides, in pertinent part, the following:

(a) In order to protect the actual or potential value, the following information is confidential and is not subject to disclosure under [the Act], or otherwise:

(1) all information relating to a product, device, or process, the application or use of such a product, device, or process, and all technological and scientific information (including computer programs) developed in whole or in part at a state institution of higher

education, regardless of whether patentable or capable of being registered under copyright or trademark laws, that have a potential for being sold, traded, or licensed for a fee; [or]

(2) any information relating to a product, device, or process, the application or use of such product, device, or process, and any technological and scientific information (including computer programs) that is the proprietary information of a person, partnership, corporation, or federal agency that has been disclosed to an institution of higher education solely for the purposes of a written research contract or grant that contains a provision prohibiting the institution of higher education from disclosing such proprietary information to third persons or parties[.]

...

(b) Information maintained by or for an institution of higher education that would reveal the institution's plans or negotiations for commercialization or a proposed research agreement, contract, or grant, or that consists of unpublished research or data that may be commercialized, is not subject to [the Act], unless the information has been published, is patented, or is otherwise subject to an executed license, sponsored research agreement, or research contract or grant. In this subsection, "institution of higher education" has the meaning assigned by Section 61.003 [of the Education Code].

Educ. Code § 51.914(a)(1)-(2), (b). As noted in Open Records Decision No. 651 (1997), the legislature is silent as to how this office or a court is to determine whether particular scientific information has "a potential for being sold, traded, or licensed for a fee." ORD 651 at 9-10. Furthermore, whether particular scientific information has such a potential is a question of fact that this office is unable to resolve in the opinion process. *See id.* at 10. Thus, this office has stated in considering whether requested information has "a potential for being sold, traded, or licensed for a fee," we will rely on a governmental body's assertion that the information has this potential. *See id.* However, a governmental body's determination that information has a potential for being sold, traded, or licensed for a fee is subject to judicial review. *See id.* We note section 51.914 is not applicable to working titles of experiments or other information that does not reveal the details of the research. *See* Open Records Decision Nos. 557 at 3 (1990), 497 at 6-7.

The university informs us the submitted information consists of research methods and unpublished research data pertaining to pigfish aquaculture. The university asserts the information it has marked under section 51.914 is valuable as it has the potential to impact other research and the commercialization of pigfish aquaculture. The university argues this

information has the potential for being further sold, traded, or licensed for a fee and is, therefore, confidential pursuant to section 51.914(a)(1). Upon review, we find the university has demonstrated the applicability of section 51.914 of the Education Code to the information at issue. Accordingly, the university must withhold the information marked under section 552.101 of the Government Code in conjunction with section 51.914 of the Education Code. The university must release the remaining information.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor. For more information concerning those rights and responsibilities, please visit our website at http://www.texasattorneygeneral.gov/open/orl_ruling_info.shtml, or call the Office of the Attorney General's Open Government Hotline, toll free, at (877) 673-6839. Questions concerning the allowable charges for providing public information under the Act may be directed to the Office of the Attorney General, toll free, at (888) 672-6787.

Sincerely,

James L. Coggeshall
Assistant Attorney General
Open Records Division
