Dear Ms. Burnett:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 597772 (OGC# 166031).

The University of Texas at Tyler (the "university") received a request for information pertaining to the current contract between the university and SSC Services Solutions ("SSC"). You claim the submitted information is excepted from disclosure under section 552.104 of the Government Code. Moreover, you state, and provide documentation demonstrating, you notified SSC of the request for information and of its right to submit arguments stating why its information should not be released. *See* Gov't Code § 552.305 (permitting interested third party to submit to attorney general reasons why requested information should not be released); Open Records Decision No. 542 (1990) (determining statutory predecessor to section 552.305 permits governmental body to rely on interested third party to raise and explain applicability of exception in certain circumstances). We have reviewed the submitted information and arguments.

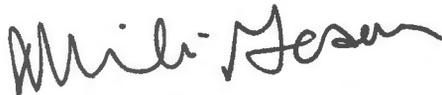

Section 552.104(a) of the Government Code excepts from disclosure "information that, if released, would give advantage to a competitor or bidder." Gov't Code § 552.104(a). The "test under section 552.104 is whether knowing another bidder's [or competitor's information] would be an advantage, not whether it would be a decisive advantage." *Boeing Co. v. Paxton*, 466 S.W.3d 831 (Tex. 2015). You state the submitted information relates to an existing contract executed by the university. You explain the university is currently engaged in an ongoing bidding process for the same services. In addition, you state the university has not executed a final agreement relating to the current bidding process. You

contend release of the submitted information at this time would “place the [u]niversity at a competitive disadvantage” and “compromise the [u]niversity’s ability to negotiate” the ongoing bid “by revealing the financial terms and other relevant contractual considerations[.]” After review of the submitted information and consideration of the arguments, we find the university has established the release of the submitted information would give advantage to a competitor or bidder. Thus, we conclude the university may withhold the submitted information under section 552.104(a) of the Government Code.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
