Opinion No. WW-97A

Re: Is the State Board of Water Engineers, under the State laws, required to approve watershed plans and the design and specifications for individual structures in the plan?

Dear Mr. Spencer:

On May 17, 1957, this Department rendered Opinion No. WW-97 pertaining to the powers and duties of the Board of Water Engineers, and in said opinion made reference to fresh water supply districts, under Articles 7936 and 7799, V.C.S.

Upon reconsideration of this opinion by the Bond Division and the Oil, Gas and Water Division of this Department, it has been decided that that part of the opinion pertaining to fresh water supply districts should be withdrawn. Therefore, we desire to delete from said opinion the following phrases:

(1) On Page 4, second line from the bottom, the phrase: "and (c) fresh water supply districts (Articles 7936 and 7799)."

(2) On Page 10, Section (b) under "Conclusions", the phrase: "or fresh water supply district".

(3) On Page 11, the fourth and fifth lines, the phrase: "or fresh water supply district".

Honorable A. C. Spencer, Page 2 (WW-97A)

With the above exceptions, the original Opinion No. WW-97  
is affirmed as written.

Very truly yours,

WILL WILSON  
Attorney General of Texas
