**THE ATTORNEY GENERAL
OF TEXAS**

**JIM MATTOX
ATTORNEY GENERAL**

January 4, 1987

Mr. William Y. Cobb
State Chemist
The Texas A&M University System
Office of the Texas State Chemist
P. O. Box 3160
College Station, Texas 77841-3160

Dear Mr. Cobb:

By letter of December 14, 1987, you asked to be informed if this office decided to reconsider Attorney General Opinions No. C-105 (1963) and H-895 (1976) pursuant to a request from the Honorable Roy Blake. Representative Bill Haley submitted the same question regarding the Texas Commercial Feed Control Act of 1957 to this office. A file has been established on Representative Haley's request to reconsider Attorney General Opinions No. C-105 and H-895. This file has been designated RQ-1314 and has been assigned for research.

If you would like to submit any information or authorities concerning this request on whether the operators of commercial feed lots are subject to the requirements of the Texas Commercial Feed Control Act of 1957, we would certainly appreciate your doing so. We will send you a copy of the opinion on RQ-1314 when it is issued.

Very truly yours,

Susan L. Garrison

Susan L. Garrison
Assistant Attorney General
Opinion Committee

SLG/bc

Enclosure: RQ-1314
