Texas Human Trafficking Prevention Coordinating Council Survey

Background and Instructions

Background

Human trafficking is often a hidden crime that knows no boundaries. It is an affront to human dignity, freedom, and justice. Effectively combating this crime requires a comprehensive and coordinated response from all human trafficking programs and services. During the 86th Legislative Session, the Texas Legislature created the Texas Human Trafficking Prevention Coordinating Council (Coordinating Council) to coordinate the human trafficking efforts in Texas. [Tex. Gov't Code § 402.034.](#)

As a result, the Coordinating Council developed this survey to gather information on the human trafficking programs across Texas. This survey seeks to elicit a broad response from victim-serving organizations, prevention programs, advocacy groups, law enforcement, prosecution, healthcare, and regulatory agencies all working to fight human trafficking from different angles. With this data, the Coordinating Council will develop a five-year strategic plan for preventing human trafficking in Texas.

Human Trafficking: *A Closer Look*

Human trafficking is the exploitation of men, women, and children for forced labor or forced sex by a third-party for their own profit or gain. This definition does not distinguish between adults and minors nor does it mirror the Texas Penal Code standards required to prosecute a criminal case. Child sex trafficking does not require force, fraud, or coercion, and trafficking of a child does not require the perpetrator to know the age of the child at the time of the offense.

Instructions

The following survey is an opportunity for you, your agency, program, or organization to provide information about what you are currently doing in the fight against trafficking and provide insight on where the state of Texas has existing gaps in need of future attention. This survey is not intended to be an official and exact submission, but rather it is intended to provide a broad and insightful visual of the current human trafficking programs in Texas. Please answer the survey questions as completely as possible.

Questions marked with an asterisk (*) are required. If you are unable to answer a question, there will be instructions on how to input your response. We recognize that many of your responses will overlap with the responses of other entities. For the purposes of this survey, duplicate answers are acceptable.

Respondent

Please designate the human trafficking subject matter expert for your agency, program, or organization to complete the survey. If you do not have a human trafficking subject matter expert, please identify an individual responsible for completing the survey. We encourage internal collaboration and information-sharing across departments to mitigate multiple responses or duplication of efforts from a single organization. One response per organization is requested.

Deadline

All responses must be submitted by **April 8, 2020.**

Thank you for your input and your inspiring commitment to this important cause.
